This Store's Policy.

We make it a point to handle the most widely known and most reliable grades of Furniture made, to sell it at moderate prices, and to honestly aid and advise every purchaser.

You'll find all our prices marked in plain figures, and we allow a discount of 10 per cent on any account settled in 30 days or less.

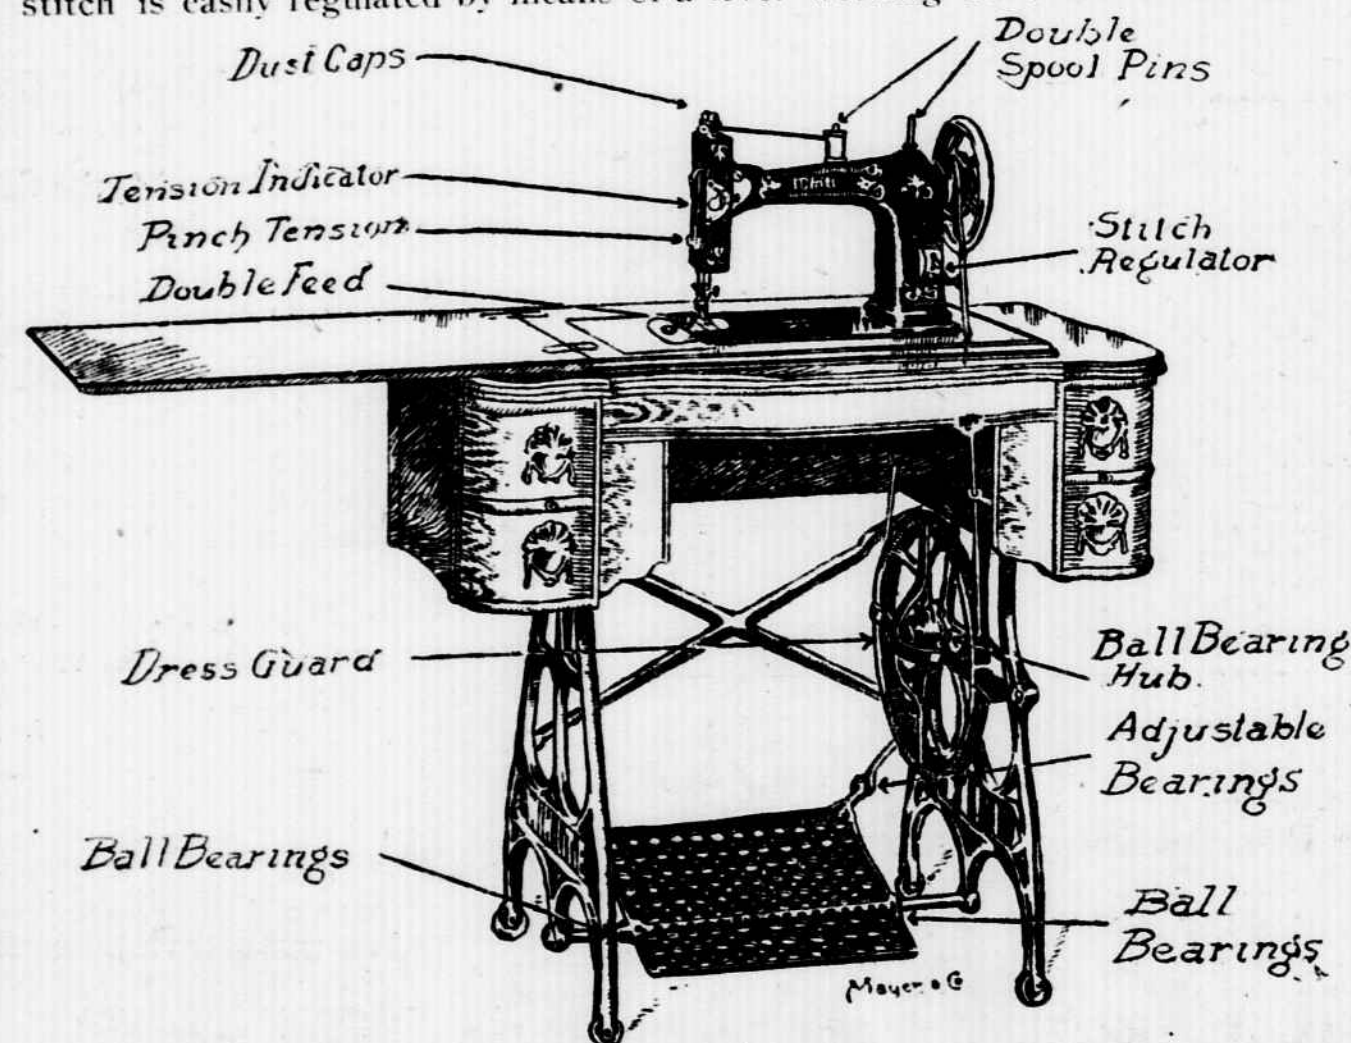

The White Sewing Machine

Has Many Points of Superiority Found in No Other Machine.

The tension indicator and stitch regulator of the White has no counterpart in any machine made. With the White the tension is regulated with absolute accuracy by means of a numbered dial. On every other machine it is a matter of guesswork and experiment. The length of the stitch is easily regulated by means of a lever working on a numbered dial.

The Ball Bearings of the White Sewing Machine give its great ease of operation. The White runs easier, sews faster and does better work than can be done on any other machine. It will sew on thick or thin materials, with long or short stitch, and coarse or fine thread, without adjustment of tension. You'll not find that possible on any other machine.

The White is the most durable machine made. It will do heavier work than any other machine, and with absolutely no trouble. We have many customers tell us their White Sewing Machines have been in use over 25 years, and are still in good condition. Our guarantee of the White is absolute for ten years. During that time we will replace any defective parts free of cost.

Let Us Send You a White for 15 Days' Trial Free.

We know the White is the best machine made, and don't expect you to buy it unless it is satisfactory in every way. We send the machine to your home—send our instructress to acquaint you with the working of the machine and its attachments—and don't ask you to pay a penny until you have used it for 15 days. If it is not satisfactory we will promptly send for it, and you need feel under no obligations whatever.

This Exact Automatic Lift Drophead White
Sewing Machine,

\$29.75

After 15 Days' Trial.

This machine is just like the illustration to the right. It is full ball bearing, has automatic lift drop head, White patent Tension Indicator and Stitch Regulator, double spool pins, adjustable bearings, dust caps on needle bar, steel pitman, full quartered oak woodwork, and is furnished with a complete set of attachments. A sewing machine store would charge you \$60.00 for an inferior machine.

This Exact Automatic Lift Ball Bearing White
